

OXYSILVER™ is a scientifically tested electro-dynamic silver, oxygen, and hydrogen solution developed to strengthen natural immunity against infectious diseases and common chronic ailments largely attributable to weakened immune systems. Technically classified as an "oligodynamic silver-oxygen covalently-bonded structured (i.e., clustered) hydrosol," OXYSILVER™ serves as the world's first nutraceutical alternative to risky vaccinations and immunizations that corrupt natural immunity through heavy metal toxicity, autoimmune hypersensitivity, and GMO-associated pathogenesis. OXYSILVER™ includes unique molecular structuring, atomic resonance energetics, and polarity electrochemistry providing state-of-the art natural, safe and effective disinfection. This product destroys pathogens—disease forming bacteria, viruses, and fungi—while leaving most competitive probiotics additionally protected.

### A New Class of Nutritional Supplements

OXYSILVER™ is a nutritional supplement that is unlike any other silver product ever produced, any broad-spectrum antibiotic in existence, or any energetic nutrient ever developed. Very simply, OXYSILVER™ is a suspension of electrically charged silver atoms ionically prepared and combined with oxygen in a most unique way, that is covalently bonded, to energized oxygen atoms. This product is unique in that it "zaps" anaerobic germs and diseases affected by oxygen. This includes the vast majority of ailments from colds to cancers. OXYSILVER™ is an energy delivering, oxygenating, water-based, silver-ionized, frequency resonating formula that can only be produced in a special reactor\* that was first developed and tested by NASA scientists for space missions and sustaining life in space when vital oxygen levels are low and water purity needs are high.

**SUGGESTED USE:**  
Take one teaspoon once or twice daily, or mix 4 oz ( half of this bottle ) in 1 gal of water and drink 2 oz to 8 oz per day.

**Supplement Facts**

Serving Size 1 tsp. (5ml)  
Servings Per Container: 48

Amount Per Serving		
Sodium	0mg	0%
Carbohydrates	0mg	0%
Silver	15mcg*	

Other Ingredients: Purified water, Contains no artificial ingredients, preservatives or additives.

\*Daily value not established 3ppm

This product is a dietary supplement. It is not intended to diagnose, treat, cure, or prevent any disease. The FDA has not evaluated these statements. Store in a dark place at 60° to 80°.

### Healthier Disinfecting

OXYSILVER™ can be used environmentally as well as inside the body, In homes and workplaces, particularly in healthcare settings, this product provides surface disinfection comparable in efficacy to generally accepted surface disinfectants without any of the risks to human health and environmental pollution typical of brand name chemical germicides.

Studies show OXYSILVER™ can be reliably used as a germicide without the toxicity risks of harsh chemicals found in most commercial brand disinfectants. In healthcare, most cleaning and disinfecting agents contain corrosive chemicals and toxic compounds damaging to equipment and people. Healthcare workers responsible for infection control in clinical and laboratory settings will, therefore, find OXYSILVER™ the preferred product, friendly to users, equipment and the environment.

Wherever and whenever germicidal responsibility is required to assure infection control, OXYSILVER™ is superior in safety with scientifically proven efficacy.

### Product Summary

OXYSILVER™ pioneers a new class of nutritional supplements providing the most powerful immune system support in healthcare history. Used daily, it can be relied upon for risk free health maintenance more assuredly than anything ever developed. Used environmentally, OXYSILVER™ provides a wide range of practical applications. It is an effective germ killer and exceptional alternative to chemical disinfection wherein toxicity is a common concern in places like nurseries, bathrooms, kitchens, surgical suites, and hospitals. Studies prove this class of oligodynamic silver hydrosols is superior in safety and comparable in efficacy to surface disinfectants customarily used for broad spectrum germicide. OXYSILVER™ can be sprayed anywhere, any time, without intoxicating anyone, even a baby or a pregnant mother. Users relying on OXYSILVER™ will have a heightened level of confidence living in a world of friendlier germs.
